BAIM / CHAPTER 1 ANIMATION LIBRARY

Chapter 1 World Motion Catalog

Procedural effects, interface motion, action-timed layers, and static state changes that may become animated later.

23 catalog entries

9 live motion

14 static / future-ready

LIVE

PROCEDURAL EFFECT

Fountain Water Stream

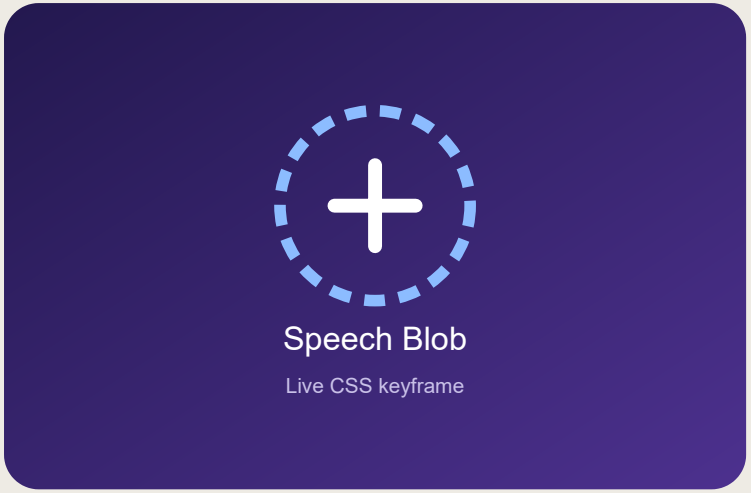

`effect.fountain_water_stream`

A restrained procedural stream runs from the c05 soldier's nozzle into the shallow dirty pool after statue repair. Highlights and ripples loop in 1.25 seconds; menus freeze motion. The statue and approved scene pixels remain static.

Scene: scene.chapter1.village_square

Trigger: flag: fountainRepaired

LIVE

UI KEYFRAME

Speech Blob

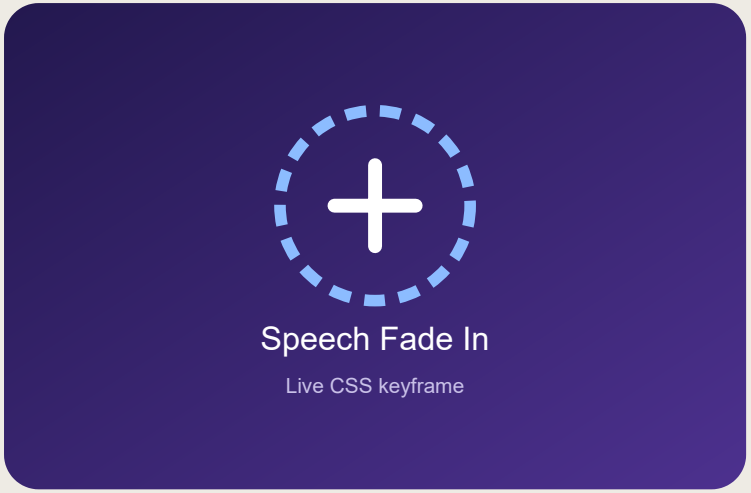

`css.speech-blob`

Live CSS keyframe animation used by the speech bubble interface.

Scene: Global UI

Trigger: CSS animation: speech-blob

Source: src/styles.css

LIVE

UI KEYFRAME

Speech Fade In

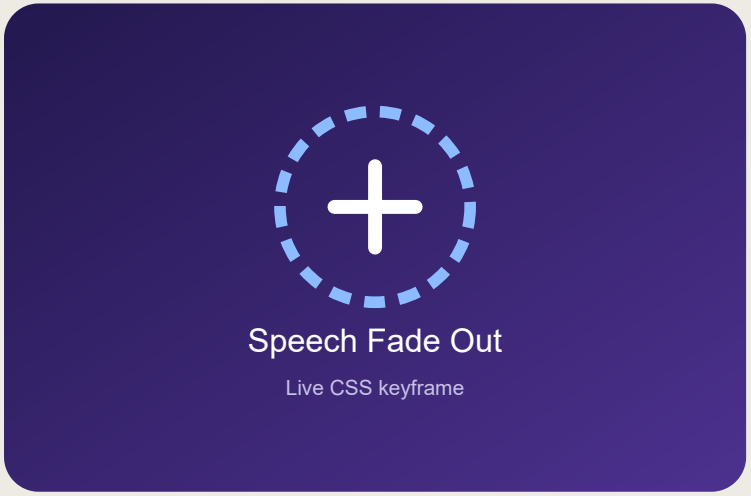

`css.speech-fade-in`

Live CSS keyframe animation used by the speech bubble interface.

Scene: Global UI

Trigger: CSS animation: speech-fade-in

Source: src/styles.css

LIVE

UI KEYFRAME

Speech Fade Out

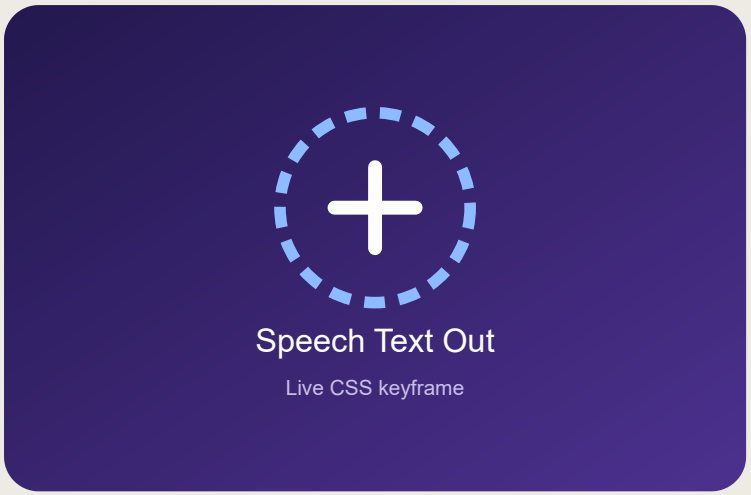

`css.speech-fade-out`

Live CSS keyframe animation used by the speech bubble interface.

Scene: Global UI

Trigger: CSS animation: speech-fade-out

Source: src/styles.css

LIVE

UI KEYFRAME

Speech Text Out

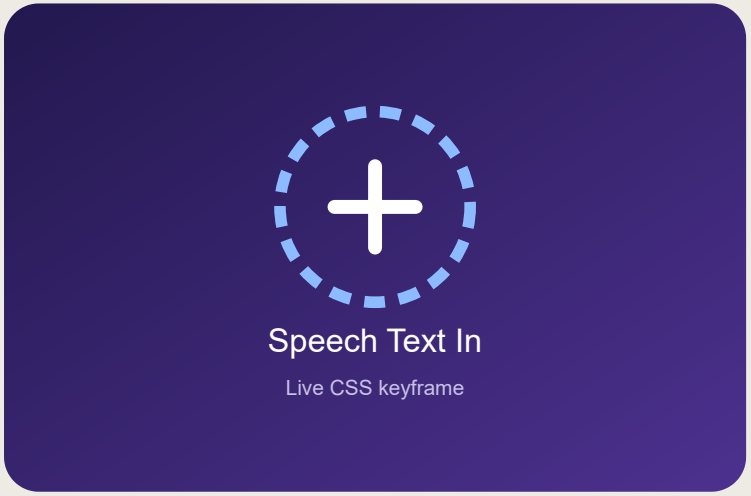

`css.speech-text-out`

Live CSS keyframe animation used by the speech bubble interface.

Scene: Global UI

Trigger: CSS animation: speech-text-out

Source: src/styles.css

LIVE

UI KEYFRAME

Speech Text In

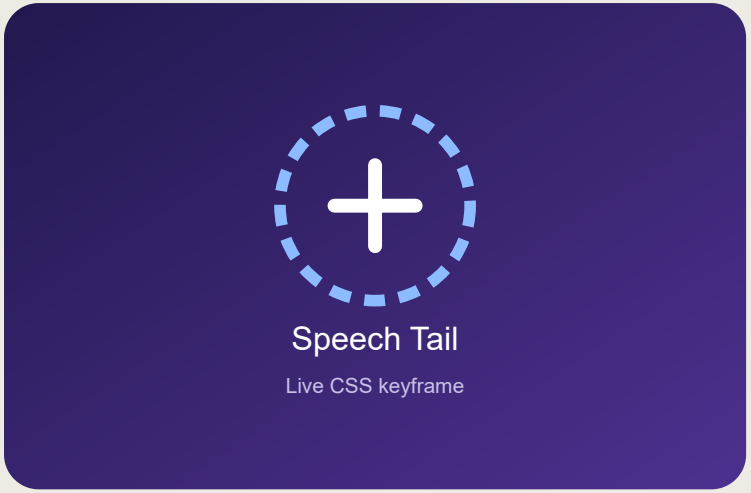

`css.speech-text-in`

Live CSS keyframe animation used by the speech bubble interface.

Scene: Global UI

Trigger: CSS animation: speech-text-in

Source: src/styles.css

LIVE

UI KEYFRAME

Speech Tail

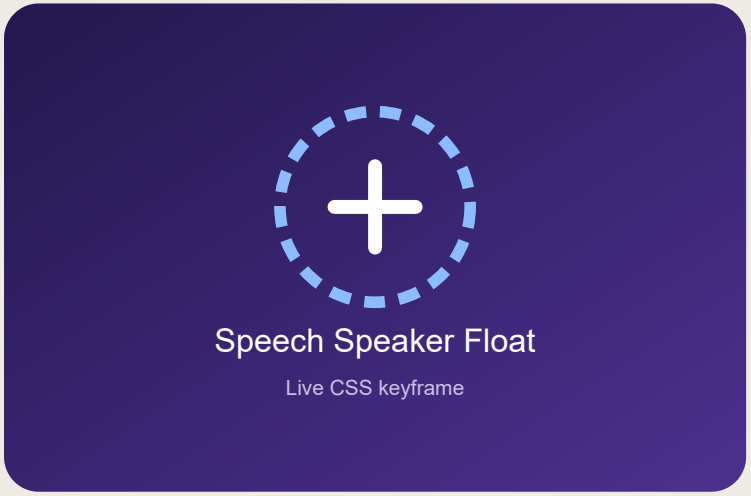

`css.speech-tail`

Live CSS keyframe animation used by the speech bubble interface.

Scene: Global UI

Trigger: CSS animation: speech-tail

Source: src/styles.css

LIVE

UI KEYFRAME

Speech Speaker Float

`css.speech-speaker-float`

Live CSS keyframe animation used by the speech bubble interface.

Scene: Global UI

Trigger: CSS animation: speech-speaker-float

Source: src/styles.css

LIVE

UI TRANSITION

Interface Transitions

`ui.interface_transitions`

Short CSS transitions animate menus, buttons, panels, and speech-bubble resizing.

Scene: Global UI

Trigger: 5 CSS transition declarations

Source: src/styles.css

STATIC ONLY

STATIC STATE CHANGE

Election Box

`layer.election.box`

A static scene layer changes visibility when gameplay state changes; no interpolated animation is registered yet.

Scene: scene.chapter1.election_booth

Trigger: requirements: {"state":{"ballotBoxDelivered":true}}

Source: assets/chapter1/scenes/archive/box-v1.png

STATIC ONLY

STATIC STATE CHANGE

Archive Closed

`layer.archive.closed`

A static scene layer changes visibility when gameplay state changes; no interpolated animation is registered yet.

Scene: scene.chapter1.archive

Trigger: hiddenWhenFlag: "archiveOpened"

Source: assets/chapter1/scenes/archive/closed-v1.png

STATIC ONLY

STATIC STATE CHANGE

Archive Jar

`layer.archive.jar`

A static scene layer changes visibility when gameplay state changes; no interpolated animation is registered yet.

Scene: scene.chapter1.archive

Trigger: visibleWhenTargetId: "hotspot.archive.jar"

Source: assets/chapter1/scenes/archive/jar-v1.png

STATIC ONLY

STATIC STATE CHANGE

Archive Box

`layer.archive.box`

A static scene layer changes visibility when gameplay state changes; no interpolated animation is registered yet.

Scene: scene.chapter1.archive

Trigger: visibleWhenTargetId: "hotspot.archive.ballot_box"

Source: assets/chapter1/scenes/archive/box-v1.png

STATIC ONLY

STATIC STATE CHANGE

Archive Replacement

`layer.archive.replacement`

A static scene layer changes visibility when gameplay state changes; no interpolated animation is registered yet.

Scene: scene.chapter1.archive

Trigger: visibleWhenFlag: "archiveJarPlaced"

Source: assets/chapter1/scenes/archive/jar-v1.png

STATIC ONLY

STATIC STATE CHANGE

Apartment Bills On Table

`layer.apartment.bills_on_table`

A static scene layer changes visibility when gameplay state changes; no interpolated animation is registered yet.

Scene: scene.chapter1.apartment

Trigger: hiddenWhenState: "hasUnpaidBills"

Source: assets/chapter1/scenes/apartment/bills-on-table.png

STATIC ONLY

STATIC STATE CHANGE

Apartment Accordion On Chair

`layer.apartment.accordion_on_chair`

A static scene layer changes visibility when gameplay state changes; no interpolated animation is registered yet.

Scene: scene.chapter1.apartment

Trigger: hiddenWhenItemOwned: "item.accordion"

Source: assets/chapter1/scenes/apartment/accordion-on-chair.png

STATIC ONLY

STATIC STATE CHANGE

Apartment Window Open

`layer.apartment.window_open`

A static scene layer changes visibility when gameplay state changes; no interpolated animation is registered yet.

Scene: scene.chapter1.apartment

Trigger: visibleWhenFlag: "apartmentWindowOpen"

Source: assets/chapter1/scenes/apartment/window-open.png

STATIC ONLY

STATIC STATE CHANGE

Square Election Sign

`layer.square.election_sign`

A static scene layer changes visibility when gameplay state changes; no interpolated animation is registered yet.

Scene: scene.chapter1.village_square

Trigger: visibleWhenTargetId: "exit.square.to_election_booth"

Source: assets/chapter1/scenes/village_square/election-sign-v1.png

STATIC ONLY

STATIC STATE CHANGE

Square Campaign Poster

`layer.square.campaign_poster`

A static scene layer changes visibility when gameplay state changes; no interpolated animation is registered yet.

Scene: scene.chapter1.village_square

Trigger: visibleWhenFlag: "campaignPosted"

Source: assets/chapter1/scenes/village_square/campaign-poster-c05.png

STATIC ONLY

STATIC STATE CHANGE

Square Shallow Water

`layer.square.shallow_water`

A static scene layer changes visibility when gameplay state changes; no interpolated animation is registered yet.

Scene: scene.chapter1.village_square

Trigger: visibleWhenFlag: "fountainRepaired"

Source: assets/chapter1/scenes/village_square/fountain-shallow-water-c05.png

STATIC ONLY

STATIC STATE CHANGE

Mehana Mitko Competition Glass

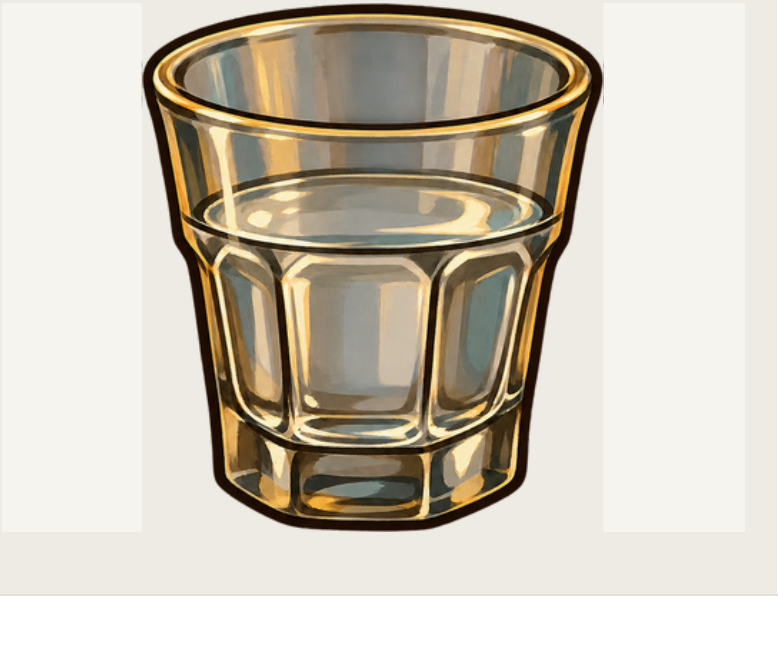

`layer.mehana.mitko_competition_glass`

A static scene layer changes visibility when gameplay state changes; no interpolated animation is registered yet.

Scene: scene.chapter1.mehana

Trigger: visibleWhenFlag: "tonyChallengeStarted"; hiddenWhenState: "tonyVote"

Source: assets/chapter1/scenes/mehana/competition-glass-v1.png

STATIC ONLY

STATIC STATE CHANGE

Mehana Tony Competition Glass

`layer.mehana.tony_competition_glass`

A static scene layer changes visibility when gameplay state changes; no interpolated animation is registered yet.

Scene: scene.chapter1.mehana

Trigger: visibleWhenFlag: "tonyChallengeStarted"; hiddenWhenState: "tonyVote"

Source: assets/chapter1/scenes/mehana/competition-glass-v1.png

STATIC ONLY

STATIC STATE CHANGE

Municipality Seal On Table

`layer.municipality.seal_on_table`

A static scene layer changes visibility when gameplay state changes; no interpolated animation is registered yet.

Scene: scene.chapter1.municipality

Trigger: hiddenWhenState: "hasMunicipalityStamp"

Source: assets/chapter1/scenes/municipality/municipality-seal-v1.png
